

Rainbow Pride Flag Colors

Did you know that each color on the rainbow pride flag represents a concept? Check out this key to the flag and take time to consider what each specific concept means to you and your communities.

The flag below is the Philadelphia Pride Flag, introduced in 2017 both as a response to racism within queer communities and as a celebration of QTPOC (queer and trans people of color). The concepts behind the colors Red through Purple are as imagined by Gilbert Baker's 1978 design.

Red: Life

Orange: Healing

Yellow: Sunshine

Green: Nature

Blue: Serenity

Lilac/Purple: Spirit

Brown & Black: Acknowledges the important contributions of queer people of color in the LGBTQ community.
